15th March 2024 -
Till now

- **Web developer**
Global Podium
I have worked in a MUN organizers startup " Global Podium " as a post of website developer

EDUCATION

2020

- **New Lahoria Vidya Mandir Sr. Sec. School**
10th Standard
A++ / 93%

2022

- **New Lahoria Vidya Mandir Sr. Sec. School**
12th Standard
A++/ 91%

SKILLS

- Team Building & Management (Team leader in various technical projects) leadership skills
- Anchoring
- 5 Stars in C language on HackerRank 5 Star in python on HackerRank
- Coding Skills - C/HTML/CSS/Javascript /Python API Integration
- District level Badminton Player

PROJECTS

- **Tapguard**
Our project is based on water conservation in which we made a sensor that sensor is connected with our mobile phones , the main work of that sensor is to sense the unusual flow of water from tap , means if the water is flowing from the tap continuously for more than 5 min , then that sensor will pop a message to the mobile number on WhatsApp , this is my idea of project.
- **Virtual Voice Assistant using Python Programming**
This virtual voice assistant is a small version of ChatGPT, designed to make everyday tasks easier and more enjoyable. Here's what it can do:
 - > Engage in natural, free-flowing conversations like Alexa.
 - > Fetch real-time weather reports.
 - > Provide the latest news updates.
 - > Utilize AI to solve various problems, from writing content and emails to coding solutions.
 - > Open and manage desktop applications.
 - > Play your favorite songs on command.
- **Library Management system**
This Project is based on C language and it have 7 functions to work:-
 1. Add Book to library
 2. Book list
 3. Issue Book
 4. Issued Book list
 5. Delete Book
 6. Return a Book
 7. Exit
- **Learning path dashboard for enhancing skills**
Ongoing project for SIH - 2024
Currently developing a user-friendly website aimed at helping first-year students understand their career paths in fields like data science and web development. The project includes features for tracking skills, learning paths, and progress statistics, with a focus on UX principles
